

## **CAMPUS SHORTGUIDE** GIVING GRADES FOR STUDENTS NOT SIGNED UP

FÜR "HAUPTBENUTZER" (PRIMARY USERS)

## Notes

- This ShortGuide will show you how to give grades for students not signed up for a course, module or exam (for example: written exam grades, overall grades or final exams on a module level).
- Generally, overall grades are not entered manually, but calculated via a calculation rule. As a result, the grade is being generated automatically by the system. In case a calculation of an overall grade is not possible, overall grades can also be entered manually.

Step 1	SS 2015 💌	1	Anmel	Anmeldung: Testdozent						
<ol> <li>Log into Campus and choose the correct semes- ter.</li> <li>In the list of events click</li> </ol>	i Sitzungsend	e in 59:46	LV-N	r. <u>Titel</u>	Anmeldever- fahren	Prüfungen/ Leistungen	Dozent

- In case you have manually created overall grades in modules, you have to mark the achievements used as "verbraucht" (spent) so they cannot be used for further modules. Please refer to our ShortGuide "Assigning spent achievements to a manually entered overall grade".
- To publish the achievements either use the arrow icon in the column "Veröffentlichen" (publish) for individual achievements or click on the link <u>"Alle Leistungsnachweise veröffentlichen"</u> to publish all achievements.

For further information and instructions regarding Campus, please refer to our user support documents. You can find them on our support sites for university employees -> www.rub.de/ecampus/campus
